
QUIXX – HIGH PERFORMRANCE POLISH CONCENTRATE

APPLICATION

- 1) Wash the vehicle thoroughly.
- 2) Shake the bottle well before using.
- 3) Thoroughly wet the enclosed sponge in water and wring out slightly (the sponge is in the base of the bottle).
- 4) Apply QUIXX POLISH concentrate to paint with the wet sponge, evenly rub it in with circular motions. Use more or less polish depending on paint condition. Always keep the sponge wet with water and QUIXX POLISH.
- 5) Allow QUIXX POLISH to dry before polishing to a high gloss with the enclosed polishing cloth. Shake out and turn the cloth regularly.
- 6) Wash sponge after use.

ATTENTION

Avoid application in direct sun light and on hot car paint. Always work on partial areas only. Protect bottle from freezing and intense heat. Do not apply on dark plastic parts.
